

Johns Hopkins Engineering

Applied Machine Learning for Mechanical Engineers

Popular Supervised Machine Learning Techniques, Part 2, D

K-Nearest Neighbors & Long Short-Term Memory Networks

- By the end of this lecture you will be able to:
 - Apply KNN for classification problems in Python
 - Apply KNN for regression problems in Python
 - Apply LSTM in Python

K-Nearest Neighbors & Long Short-Term Memory Networks

Let's jump to Module06_D.ipynb

K-Nearest Neighbors & Long Short-Term Memory Networks

- In this lecture, you learned about:
 - How to apply KNN for classification problems in Python
 - How to apply KNN for regression problems in Python
 - How to apply LSTM in Python
- In the next module, we will talk about popular unsupervised machine learning techniques
